Otto Gielier, an interned German, was taken to Winnipeg by an escort under Corporal Tubbs this morning. Gielier will appear before the Intelligence Department at Osborne Barracks for permission to see his little daughter, who is seriously ill in Winnipeg.

If permission is granted, Gielier will visit his daughter, and will remain at the house under escort.

Otto Gielier was interned with the prisoners of war for aiding and abetting alien enemies to cross the international boundary with the intention of assisting them to reach Germany.
