

Aliens¹¹ Were Able To Give Excuses

*Several Appeared to Register
To-day and Were
Accepted*

Several unregistered alien enemies put in an appearance at the Bureau for the Registration of Aliens to-day, but they were accepted because they brought evidence with them to show that they had just arrived from the backwoods.

One of the aliens who were taken in hand by the police yesterday because of suspicious circumstances, has been interned at Stanley Barracks for the duration of the war. He is George Pollahaski, who had been living at 28 Draper street. He was born in Obertyn, Austria, and had no visible means of support.

Pollahaski was the 58th alien to be detained by the registrar.
