

**Round Up Austrians in Bush.**—Four more arrests of Austrians encamped in the bush around St. Boniface were made yesterday by the St. Boniface field battery. One of the men, on being examined at the barracks, accounted for his actions satisfactorily and was allowed to go. The three others were taken to Fort Osborne barracks, and a further examination resulted in another being released. Failing to satisfy the authorities, the other two have been detained and will be interned at Brandon. One of them was found to be carrying a big, home-made "knuckle."
