

# 45<sup>TH</sup> LEAVE VERY SOON

The 45th Battalion will move to Sewell camp just as soon as arrangements can be made for the handling of the interned aliens here. Orders were received this morning to send the advance party of the battalion to Sewell on Friday.

On Saturday the men from the outlying points will go into camp as well as the Brandon men who will not be required to guard the war prisoners. No statement has yet been made officially on the matter, but it is generally understood that the 99th will take over the guarding of the aliens as soon as the required numerical strength has been attained. There are nearly 800 interned aliens here now, and this will mean the retention of at least 250 men as guards.
