

Police Court News

There is little doubt that there are several alien enemies within the city's gates, who have failed to register themselves as such, either through ignorance or indifference. At every street corner in the east of the city groups of foreigners may be seen and they are invariably talking in either German or Austrian. Some of them may be naturalized, others assuredly are not. Such a case came before Magistrate Primmose this morning. Fred Wata was charged with vagrancy. On one of the police witnesses remarking that the accused was an alien enemy and was not registered, his worship ordered him to be interned at once.
