Who is the Registrar of Alien Enemies in Toronto?

Mr. H. J. Grasset, Chief of Police, is under the impression that he has been appointed from Ottawa to take over the work.

Mr. A. J. Russell Snow, K.C., understands from a telegram received to-day that the police are to take over the purely clerical work of registration only, while he is to retain the magisterial work of granting exerts and deciding internments.

To-day the Chief of Police sent down Detective Murray to take over the papers of the office.

Captain Wandless is to stay in the office to instruct the new official until the end of the month.

It appears to be undecided also whether the office will remain on Adelaide street or will be moved to the City Hall. Desire for economy is given as the reason that has actuated the Ottawa officials to make the change.
