

# GERMAN OFFICER IS HELD AS SPY

---

Military authorities in Winnipeg admitted today they have under arrest a Germany army officer who has been communicating with his government through United States channels.

Beyond that they refuse to give any information apart from the fact that the man was caught near Altamont and is now being held at Brandon. He may be interned or he may be court martialed. In addition to this officer several other alien enemies were caught yesterday and today while trying to get across the boundary. They will be interned until the war is over.
