

ARREST ALIENS ON TRAIN

Three Austrians Taken on Way to Harvest Fields

As a result of precautions which are being taken by the officers of the Alien Enemy Registration Bureau to prevent Austrians or Germans from evading surveillance by taking harvest excursion trains to the west, three men were arrested on a west-bound train which left Montreal last Friday. Officers Rioux and Porteous took the train with the harvesters and examined the 955 third class passengers on board. Only four alien enemies who had not obtained permission to go to the harvest fields were found out of the total number. Three brothers, Austrians named Zoyanokowski were taken in charge and brought back from Smith's Falls to be interned in Montreal. The fourth man, however, made his escape by jumping the train as it slowed down at St. Clet. Steps are being taken, however, to ensure his arrest.
