

INTERNEED GERMAN ESCAPES.

**Gets Away From Detention Camp
When Guard's Back Turned.**

Lothbridge, Alta., Aug. 26.—A German interned here escaped from the detention camp last night and the

mounted police are scouring the country for him. He climbed fence when the guard's back turned. This is the third escape from the camp, but the others were caught shortly after their escape.

Shortage of binders is reported from several districts, and a shortage of twine is also threatened. Heavy is the grain that much more twine is being used than was at first estimated.
