

ADVANCE SQUAD OF PRISONERS

**Are Brought to Banff Thursday---Preparations Start for
New Internment Camp**

A small gang of aliens was moved down from the internment camp at Castle mountain this week, and work was started on the new winter camp which will be located near the Cave and Basin bath-house.

This preliminary gang of laborers will prepare the ground at the rear of the bunkhouse for the campsite, and it is expected that all the aliens in the internment camp, some 400 in number, will be removed to their new quarters before the snow flies.

The officers and men on guard will occupy the bunkhouse, and it is asserted that between 100 and 150 men will compose the guard.

The aliens will be employed during the winter months in working on the new road now being surveyed by Engineer Child and his staff.

The advance squad, which arrived here Thursday, consisted of thirty alien prisoners. They were guarded by twelve soldiers.

Captains Spence, Spencer and Palmer, internment camp inspectors, came down from Castle and will oversee the work of constructing the new camp.
