the two city news eporters who visited the town last week in the role of sensation-mongand were responsible for the publication broadcast throughout Canada of the lurid stories regarding "the German menace" here. While locally there had been some little differences and misunderstanding which were more or less inevitabl because of the peculiar conditions here, there was absolutely no war rant for the three-column headlines which the Ottawa Journal and To News used in featuring silly prattle from a couple men who knew nothing local conditions and hence could any way sympathize with views of either side. . It hat in their efforts they man ing of the community and that their s'ay in town was more in the interests of the subscription departments of their papers than the general weal. weal. In a letter on page three of this issue Mayor Morris gives his own version of the original interview with the Journal representative, and this bears out completely the view taken of it by The Observ-er last week. The reporters remained in town all week, and every night their stories, some of them based facts of which little notice was taken locally and which were magnified all proportion, were p were prominently also published and the drew freely on their tions to give a sufficiently lurid co to their yarns. Locally the to regarded by not known the stories be accepted as correct har Pembroke has received a of undesirable and unmerite publicity. The articles have good service to the have certainly not enhance their prestige here. Practicall stuff published was speculative and as such harmful at a time feeling is running high, an would be well if in future re rters/ bent on such errands coul out of the community. bserver last week expressed lews on the tocal situation gen and at Monday Mayor Morris opinions with concur. Without pretence at superior jus to appear egotistical that friends will but follow the course
