

German in Canada Here on Approval

*He Should be Made to Feel
This, is View of Rev.
Dr. Hincks*

Germans living in Canada should be made to feel that they are here on approval, said Rev. Dr. Hincks in his sermon at Trinity Methodist Church last night. He charged the German people of this generation with being lax in moral principles, though highly educated. They were not truthful in matters of state, were cruel in war, and awful in their treatment of women. This class of people should be barred from all responsible positions in Canada or any other part of the British Empire. "I do not include the Germans or their descendants that left the Fatherland in 1848 to escape tyranny and militarism," he said, "for they are true patriots and lovers of freedom—also those who came from Pennsylvania United Empire Loyalist stock. These are well above suspicion. I might as well suspect ex-President Roosevelt of treason as such a man as Dr. Hansel."
