

A German prisoner named Forceller was "found missing" when the roll was called at the Internment Camp on Sunday night, and is still at large, though every effort is being made to locate him. This man is said to be a particularly dangerous alien and served for some time last year in the 64th Battalion, where he had enlisted as a Belgian. Suspicion was aroused and he was arrested as a spy, and found to be a German. It is not known how he effected his escape and apparently there is no clue as to his present whereabouts.
