

# ACTON CITIZENS OBJECT TO ALIENS BEING EMPLOYED

---

## Forty Brought From Intern- ment Camp to Be Sent Back

---

(Western Associated Press)

ACTON, Ont., April 21.—Forty aliens who were brought from a New Ontario internment camp to work in a tannery here, and who were the cause of a demonstration on the part of several hundred of the townsfolk night before last, will be sent back to internment as soon as men can be obtained to fill their places. This promise was made yesterday to a committee of citizens.

There have been about 100 Austrians employed at the tannery here for years, and a number of them own property here. At the outbreak of the war most of them were interned and it was thought bringing them back to their old positions would be a solution to the difficulty of filling vacancies caused by enlistments. The action was resented by the citizens and other employes of the tannery, who failed the homes of the Austrians breaking the windows, but using no other violence.
