Petawawa camp is again the scene of military activity and in a few days will resound with the boom of the big guns of Canada's artil-lery forces in training for overseas "C." Battery, R.C.H.A., Kingston, and the 42nd, 48th and 49th Batteries, Toronto, are among the unit: slready at Petawawa, with ammunition columns and full equipment of horses and guns, and troops are arriving daily. It is expected that about 5,000 artillery men will spend the summer in training there, and already the benefits of the camp are being felt in Pembroke, as all meat, groceries and other supplies are furnished from here. We un-derstand the regulations regarding visitors to the camp will be pretty tightly drawn and that passes will be required by all who wish to enter the grounds. The necessity for such a rule will at once be apparent to everyone. It was some time ago announced that Col. Roy would be commandant at the camp this season, and as a matter of fact his appointment was announced a couple of months ago. It was, however, for some reason subsequently vetoed by the Minister and Col. Gregory, who displaced Col. Irving when the latter's appointment as commandant of the internment camp was vetoed some six months or so ago, has again been successful in landing the plum. Col. Roy, who is regarded as a most efficient and successful officor, will be instructor for the camp and is already on duty. The Kingston Whig says regard-ing the departure of C. Battery from that city: "C" Battery, R.C.H.A., on Friday evening for Petawawa, taking 208 overseas volun-
