

# GERMANS FED UNCOOKED MEAT; TOO LAZY TO WORK

---

QUEBEC, Dec. 6.—A report from Amos, Pontiac county, Quebec, says the 400 Germans and Austrians interned there, are becoming lazy and even refused recently to go into the woods to cut wood necessary for cooking and heating of their camps.

A measure which should bring the interned men to time was adopted by the authorities of the camp, who departed from the usual custom of serving cooked rations to the war prisoners.

Raw meat and other uncooked food was given to the aliens, it is said, and will continue to be served them so long as they refuse to cut wood necessary for cooking.
