

# MAYOR ANGRY AT GEORGE

---

## Sharp Retort to the Chairman of the Military Hospitals Commission.

In a tone of resentment Mayor Church to-day replied to the statements made by W. K. George, chairman of the Hospitals Commission, with reference to his Worship's allegations concerning the treatment of the soldiers at the Whitby Military Hospital:

"I think that Mr. George's remarks were most impertinent," said the Mayor. "I investigated the complaints and found them to be warranted. Two soldiers from Whitby are housed at ~~Stanley Barracks~~ with alien enemies. Mr. George says there has been none there for three months. There were many there last Friday when I visited the barracks and found that two soldiers were housed among them. Mr. George has had no experience in hospital work, nor has the local end of the commission. Nearly all of them are novices at the work. They have shown a lack of judgment and heart in their dealings with the soldiers.
