

500 HARVESTERS WANTED IN THE BRANDON DISTRICT

Secretary J. C. Machesney of the
National Service Committee
Estimates Needs

An urgent request that five hundred harvesters be sent from Winnipeg to Brandon has been forwarded by Mr. J. C. Machesney, of the local National Service Committee, at the request of the employment agencies of the city.

Laboring men of foreign birth are swarming into the city these days, and a large number are directly given employment and sent out to the farms, after registering at the alien registration offices at the City Hall.

The employment agencies are doing great business, but the present difficulty is to secure a sufficient supply of farm laborers to meet the demand.
