### **R. B. Bennett Says Crops and Farmers are Menaced by Alien Population**

---

Ottawa, Aug. 22.—There is very great activity on the part of the alien enemy within our gates. According to Mr. R. B. Bennett, in the House on Saturday, when they were considering a supplementary grant of \$250,000 for the maintenance of the Royal North-West Mounted Police, he declared that in more than half a dozen places recently farms had been destroyed in Western Canada and crops menaced by the foreign-born population, and there was in consequence a strong demand that the force be increased.
