

# AFTER STRIKE-BREAKERS

**Immigration** Authorities Turn Back Men Trying to Work as G.N.W. Operators.

Montreal, Sept. 28.—The immigration authorities continued to turn back men coming to Canada to take positions in the Great North-Western Telegraph Company, whose striking operators were still out to-day.

It was also learned here that the United States **immigration** authorities are interesting themselves in the trouble, because they suspect that a large number of men trying to get into Canada to take telegraphers' jobs are really men attempting to evade military service.
