

## Would Intern the Germans. 1

R. E. Ward, 407 King street, a returned soldier, believes that efforts should be made to intern all Germans living in Kingston just as is being done in Halifax. Now is the time to act. Germans are working who should be locked up. "Would a Britisher be allowed to work at big wages and own property in Germany? By no means. We would be kept in a tight corner, well watched, and made to work for them or suffer." The Canadian people are giving the enemy far too wide a scope.
