

# LOOK TOWARDS WEST TO SOLVE PROBLEMS

## Hillcrest Ratepayers Would Put Aliens and Interned Be- hind Tractors.

Earlscourt, Jan. 18.—Mr. D. Munro, secretary of the Hillcrest Ratepayers' Association, at a meeting of the women's branch of the Citizens' Committee of Earlscourt, last night, in the Royal George Theatre, said that there should be no talk of war bread or a famine in this country.

"Such talk as that is harmful, and will get back to the Germans. Our Government should make preparations for ample supplies of food, not only for the duration of the war, but also for two years afterwards," he declared. "The sooner we can show the Germans that we have ample men, munitions, and food the sooner will they give up.

"Although we have a Food Controller the prices are continually advancing, and the Government does not seem to be making any serious attempt to arrest this steady upward climb," continued the speaker.

Mr. Munro also said that the Government should confiscate the untilled C. P. R. lands of the West, which that company were holding for high prices, and grow wheat upon them.

Attention was also called to the wasteful feeding of good wheat to hogs.
