

ALIEN LABOR QUESTION IS BOTHERING TORONTO

TORONTO, April 22.—The Toronto City Council will take a turn at the alien labor question today, and it is expected that a memorial demanding drastic treatment of the matter will go forward to the Dominion Government. There are two or three resolutions on this subject on the order later.

The Board of Control is recommending that the Government be requested to pass such legislation as will require all employers of labor to make a monthly return, under oath, showing the names, ages and addresses of all aliens employed by them.

This is for the purpose of keeping a more strict watch on the movements of foreigners.
