

MAY HAVE TRIBUNALS TO DECIDE ON ALIENS

Ottawa, Feb. 13.—The creation of local boards or tribunals to determine whether or not aliens of enemy nationality now in Canada are undesirable and dangerous and should be interned and ultimately deported was under consideration at yesterday afternoon's meeting of the cabinet council. From many centres of population in the Dominion have come demands that the Germans, Austrians, Bulgarians and Turks be returned at once to the countries whence they came. These demands have emanated from returned soldiers and Labor organizations. They have been based upon the assertions that the aliens in question, after enjoying protection and prosperity during the war, are now holding positions which should be available for men returning from the front and are otherwise undesirable.
