

MONTREAL REDS HOPE FOR SOVIET GOVT. IN SPRING

**Hope to Put Bolshevist Principles
Into Effect in May, Says the
Montreal Star**

Montreal, Dec. 13.—The Montreal Star says the Reds here hope for a Soviet government in the spring. It states the Reds hope to upset the government somewhere about May 1st, and to apply to Montreal and Canada generally the principles of Lenin and Trotzky. Continuing, the Star says Reds meetings are held every day in this metropolis, that Bolshevist literature is imported by the ton for the Montreal people, and that schools are being carried on for the purpose of making efficient Red lecturers and agitators.

The Star says the Reds decided to take action in a One Big Union or Bolshevist way last spring, but internal dissension finally broke up this plan. Large sums of money, however, have been raised to assist the ringleaders now under trial at Winnipeg. This was done by the sale of what was known as "liberty bonds." Money is now being raised by dances and other ways.

The newspaper says that the Reds are now trying to undermine the labor unions, while women are "planted" in factories to sow discontent. Sinister tales are told of the Russian technical aid body, which specializes, it is claimed, on engines of destruction.

In conclusion, the Star claims that Alexander Berkman and Emma Goldman, anarchists, were deported from the United States on information secured in Montreal, and that the government will adopt the same policy toward local Reds.
