

NO CALL FOR RESERVISTS YET

Toronto Representative of Austria
Government Has Received No
Word Yet.

Although it has been reported that the Austrian reservists in the West had been called to report for service, no official communication regarding reservists in Toronto has as yet been received by Mr. J. Henry Peters, the representative of the Austrian Government. Several of the Austrians have still been asking for information, but the excitement has lessened to a certain extent.

Regarding ~~German~~ reservists, no information has reached the Consul's office as to any call. There are a considerable number of Germans scattered all over the Province, and these would be notified individually, as in the case of the Austrians, if they were to be called into active service.
