

# ATTEMPT TO WRECK TRAIN

---

## Dynamite Discovered on Canadian Northern Track

Toronto, August 6.—News has reached Toronto that an attempt was made within the last forty-eight hours to wreck a Canadian Northern Railway train by dynamite near Parry Sound, on the road to Winnipeg. Dynamite in a sufficient quantity to blow up a train was placed on the track. It was removed in time and a catastrophe averted.

The Canadian Northern lines are to be guarded by armed men in the company's employ. Application has been made to the military authorities here for arms and ammunition, which are to be supplied immediately.

Bridges and all the company's more important buildings will be placed under strong guard. It is said similar precautions are being taken on all the other lines in Canada.
