

# *Interned Aliens Take to Farming*

---

## *Some Send for Families to Homestead in Northern Ontario*

---

According to word received from the detention camp at Lake Kapuskasing, Northern Ontario, a number of the prisoners of war are already planning to establish themselves as settlers in the district after the termination of war. The men are well satisfied with their surroundings and upon their release, many of them will send for their families in order to take up homesteads. Some of the prisoners are being taught the rudiments of farming, but many had already had farming experience.

Lieut/ Walter Menten, of the 48th Highlanders, with twenty-two men from the 48th Highlanders and nine from the Royal Grenadiers, left Toronto last night for Kapuskasing in charge of sixty prisoners from Stanley Barracks.
