

# *Allows Austrians To go to Welland*

---

## *Col. Grasett Takes Over Attention to Applications by Aliens*

---

While there is still uncertainty as to the exact relationship between Mr. A. J. Russell Snow, K.C., and Col. H. J. Grasett, Chief Constable, as to their respective spheres of authority with regard to the control of alien enemies in Toronto, the latter to-day granted permission to five Austrians to go to Welland. Mr. Snow was always very chary about allowing alien enemies to go to points near the international border, lest their real intention should be to slip across the line to join the forces of the enemy.

A permit to go to Bronte was also granted to-day by the same authority.

These are the first official acts of Col. Grasett in his new office.
