

## Aliens Leaving Ontario

Upwards of 15,000 aliens have left the province of Ontario, 5,000 of them from the city of Toronto alone, for their homes overseas since December last. They took away with the mover \$30,000,000 of Canadian money. In round numbers there were 10,000 Austrians, 2,000 Greeks and Rumanians, 2,000 Bulgarians and Serbians, and 1,000 Macedonians. Their average wealth, carried out of Canada, was \$2,000 per head. They were for the most part men who filled the places in the industrial world when Canada's sons enlisted.
