

Arrest Four Germans—That an eagle eye is still being kept on aliens is shown by the fact that Saturday 4 more suspicious characters of German nationality were sent up to Winnipeg from Emerson district where they had been arrested. The men are now in the guardhouse of Fort Osborne barracks and will in all likelihood be sent to Brandon. So close is the watch being kept upon aliens that every week arrests are made and while many are released others upon investigation are of such suspicious character that they are interned, at Brandon.
