

Escaped to States.

Brandon, April 29.—Four more prisoners of war were brought from Winnipeg yesterday and interned here, bringing the total up to 297. Only two of the five prisoners who escaped on March 11 have been arrested. One managed to cross to the United States by way of Emerson owing to the authorities at that point not having his description. He hired a rig from a local farmer, drove across the border, and then wired the farmer informing him

where he would find the discarded
trick.
