

REPORT DISLOYAL EXPRESSIONS.

Any person in Brandon who hears unpatriotic language being used, or hears aliens decrying the British cause, should not hesitate to communicate with the authorities. Of late there has been considerable seditious talk by aliens for which they can be arrested and interned. The trouble experienced by the authorities is that no direct evidence can be secured on which to place these aliens in their proper place.

Mayor Cater is very much interested, having received quite a number of complaints. The matter has been taken up with the military authorities who state that some evidence must be available before an arrest can be made. They are on the lookout for cases of this character, and any citizen who is able to help the authorities should not fail to communicate with them at once. The matter will then be thoroughly investigated and the complainant adequately protected. The name of a complainant need only be known to the authorities.
