

PERSISTENT RUMOR THAT INTERNED ALIENS MAY GO UNDER CANVAS.

It is persistently rumored here that the interned aliens are to be placed in a large camp east of the Asylum. It is known that since the break for liberty last Saturday night the authorities have been considering every means to eliminate the possibility of further trouble, and the suggestion was made a few days ago that the prisoners be taken out to a camp near the rifle range. This is an admirable spot for such a camp and is within easy reach of the city. When asked about the rumor, Col. Clark stated that he had heard nothing of the matter, but did not contradict the suggestion that such a scheme might be before the military authorities.
