

ALIENS ARE ROAD MAKING

Ottawa, Sept. 25.—General William Otter has about 6,00 enemy aliens at work now in various camps from coast to coast, besides 1,000 more who are detained at various points. There are 600 at Brandon for whom no suitable work could be obtained in that district and some of them will likely be sent to Banff to work on road construction and the development of a hydro-electric project. Another party will be sent to build roads in the famous Yoho Valley, near Field, B.C.
