

# **BULGARIANS HAVE NOT YET REGISTERED**

**Either There are None in the City  
or They Pay No Attention to  
The Regulations**

## **MAY NOT KNOW OF THEM**

Instructions have been issued that Bulgarians be now registered as alien enemies, but up to this morning the Brandon registrar, Mr. McChesney, had not received entries of natives of the country that took the most recent plunge into war. It is not thought that there are very many in the city, but an effort will be made to locate them.

At the present time Mr. McChesney has on his books a total of 1,380 aliens who register periodically. There are 880 permanently living in the city, while some 50 are transients.

Of the 500 transients, 240 reported here last month, the others having gone away. When an alien enemy wishes to move to another location he obtains a card and is given permission to go to that place. On arrival he must present himself and his card to the authorities.

The men register once a month, except in a few cases where it is specially desired to keep in touch with them. Then they may be required to register twice monthly. Failure to keep their parole means internment
