

German Officer Interned Here

Arrested at the Royal Alexandria Hotel in Winnipeg After a Search of Effects

Among the latest arrivals due at the internment camp here is a German officer who carries the prefix "Von" to his name. He was arrested by the military police in the Royal Alexandra hotel, Winnipeg. A search was made of his personal belongings and as a result the officer will be interned here.

Circumstances leading up to his arrest were peculiar. It appears that he boarded a C.P.R. train at a station on the Soo line early Wednesday evening. He had with him a trunk so heavy as to necessitate the hiring of two porters to place it aboard the train. From his speech it was evident to the station officials that he was of foreign extraction, and the military authorities were communicated with.

The German registered at the Royal Alexandra Wednesday night, having the trunk taken to his room. The military police being apprised of his visit here surprised him in his room and examined the trunk. It contained nothing but a few papers and weighed but a few pounds.

A gold watch was taken from the trunk. On the inside casing was engraved the owner's monogram, and mounted above this was inscribed the German imperial crest. Other valuables taken from the trunk will be restored to him when his internment is concluded.
