

# INTERNEED ALIENS LEAVE TONIGHT FOR ALBERTA

---

## Party of Hundred to Go to Castel and Seventy Others to British Columbia

---

Major Coleman, head of the internment camp here since it was established nearly two years ago, leaves tonight in charge of 104 aliens who are being taken to Castel, Alberta, also the remainder, about seventy, who will go to British Columbia. Strenuous efforts were made to retain the camp here, but on the ground of economy the camps in the west have had to be amalgamated. About fifteen guards will be kept on for a week or ten days to wind up the camp here and the staff of Major Coleman will be here for another week. The large majority of the guards are joining overseas forces.
