

ALIEN ENEMIES MUST NOT FAIL TO REPORT

That the authorities are determined to enforce the law respecting the registration of alien enemies was apparent at the police court on Monday afternoon when a dozen Austrians put in an appearance. They were charged with neglecting to make their periodical reports, and in some cases failing to take out cards. Fines were administered, ranging from \$5 to \$15 and costs.

In the early part of the day, a bunch of the foreigners were rounded up in a pool room. They were marched to the police station, where an investigation was made as to whether they held cards and had reported regularly in accordance with the requirements of the law. Magistrate Fraser let it be known that he will deal strictly with any alien enemy subject again offending.
