

Bird's Hill Residents Statement.—

The people of Bird's Hill resent the statement made in a city paper that it is residents of that village who are moving to secure the release of H. Bodner from internment. Bodner was interned for persistently refusing to sign the national service cards, and the people of Bird's Hill have no sympathy for him, especially as he is registered as an alien enemy. It appears that some coin-

patriots, a few of whom have been naturalized, who live in Springfield municipality, have taken steps to secure Bodner's liberty.
