

# ALIENS REQUEST TO BE INTERNEED IN BRANDON

Winnipeg, Man., May 19.—Daily the contribution from Winnipeg's alien enemy area to the Brandon detention camp grow in number. Usually the individual facing internment finds small comfort in the situation, but apparently there are some who appreciate the advantage of getting three "squares" a day even at the expense of their liberty, for in one day eight Austrians presented themselves at the Colony street registration office, and requested to be sent to Brandon. Two more aliens were forwarded to the camp yesterday morning, one, a German, for breaking his parole by attempting to board a train for the States. Only a small number at present attempt to leave the country surreptitiously, the majority trying by various pretexts to get the necessary passports to facilitate their journey. Many claim to be Alsacians and not responsible for their Teutonic accent and habits. One such requested permission to leave the country a few days ago, but as he bore a German name and was unable to speak French he narrowly escaped being locked up.
