

Stefanik Makes Explanation. — In connection with the account of the proceedings in the application of Capt. Szablowski for re-naturalization, Theg. Stefanik has written the Free Press stating that in opposing the reissuance he had done so from a point of view of fair play. He had applied for the naturalization of alien enemies who had been respected residents of the country for many years and had been refused, so he did not want any favors shown. He also states that the attorney did not refuse to handle the case but had said he would refuse if he considered it had been brought for personal reasons. When it was disclosed that Capt. Szablowski had been previously naturalized an American, Mr. Stefanik withdrew his opposition.
