

23,000 Alien Foes Register In City

Approximately 23,000 alien enemies have registered in Winnipeg since the war began, it was learned today. Some of these have been interned while others have to report at regular intervals, the frequency of reporting being governed by circumstances in connection with their cases. A few registered as alien enemies to escape going to war, but military and Dominion police assert that they have rounded up most of these, had them fined and turned over to the military authorities to learn the art of soldiering.
