

To 'Expose' Politician On Alien Question

A returned soldier, who is a student at Manitoba College vocational school told The Tribune today that he would read a letter at the meeting this evening of manufacturers and soldiers, which would "show up party politicians on the alien question." The man claims to be in possession of a document written by a Winnipeg man to a prominent local politician, asking for the release of several interned Austrians during an election campaign. The request was granted, he says, on the grounds that the aliens would be "useful." The letter is in the safety deposit vault of the Great War Veterans' association. The returned soldier who owns it says he was offered \$500 for it.
