

MORE PRISONERS GO NORTH. 100 TO BE SENT TO HEARST.

Process Building, at Exhibition, Will Accommodate 2,000 Soldiers — Machine Gun Corps Start Training.

Toronto, January 11.—McPherson's Camp, the establishment near Hearst on the National Transcontinental Railway at which the Government is lodging its prisoners of war and using them to clear land, will receive this week one hundred more alien enemies, who have been arrested. Ten of these are being sent from Toronto and ninety from Kingston.

Dr. Ervine Kohlman, the former employee of the Toronto city Works Department, will be the only prisoner left then at Stanley Barracks. He is being shown the courtesy of an officer prisoner. All the Toronto prisoners are Austrians, with the exception of two, who are Turks. A guard of one officer and twenty-two men will be sent from here.
