## *Young Alien Just Returned Says They Have Little Work*

---

George Koscocheck, a young Austrian, has just returned from the camp at Kapuskasing, where he was interned on March 4th for being too big for his boots. He was not going to report, he said.

Mr. A. J. Russell Snow, K.C., Registrar of Aliens, thought that George had been taught a lesson, and when various requests were made for the release of George, who has a job in the city, the Registrar consented to request the military authorities to let him go.

George has lost his fear of the Registrar's office. Also he does not boast of disregarding it any longer. Though he must report every Friday, he was round the office to-day.

He says they have a good time at the camp; do not have to work too hard, and have all day Saturday and Sunday to themselves, then they can go fishing, or play baseball or football, of which game they are very fond. In the evenings they play cards and sing, and generally have a good time with lots to smoke and plenty to eat.
