TWO THOUSAND ACRES CLEARED AT ALIEN CAMPS

FOUR THOUSAND MORE SET ASIDE—PART IS BEING CROPPED THIS YEAR.

(Special Despatch to The Globe.)
Ottawa, June 18.—The 2,000 odd alien enemies interned in the big concentration camps at Kapuskasing and Spirit Lake, in northern Ontario and Quebec, have already cleared about 1,000 acres of good arable land at each camp, and the Government has now set aside another 2,000 acres at each point for further clearing. Part of the land is being cropped this year. By next year it is expected there will be a considerable settlement in these districts, and as a result of the war two new towns will spring up along the National Transcontinental.

Reports from the camps show that the prisoners of war are, on the whole, well satisfied with their conditions, and many of them have indicated their intention of taking up land in the neighborhood and remaining there as permanent settlers after the war ceases.
