

## LOCATE NEAR KAPUSKASING

---

Probable District Govt. Will Use for  
Placing Soldiers on Farms.

---

Toronto, Jan. 9.—It is probable that the Government's land settlement undertaking to place returned soldiers on the farms will be located near the Kapuskasing river and that in this area about 600 farmers will settle.

Details of the scheme have not yet been settled, but it is quite likely that a training school will be provided at Monteith. When the new demonstration farm is got under way the Monteith Training School will in all probability be set aside for others than returned soldiers.

One million dollars has been set aside and it is calculated that about \$1,500 will be devoted to each settler. In the spring sites will be fixed and then it is expected road work will begin.
