

# COL. PENHORWOOD INSTRUCTED TO TAKE ALL BULGARIANS IN

---

Received Notice Today That  
Local Militia Must Look  
After Them Here

---

Another nation, Bulgaria, having been added to the list of enemies of Britain and the allies, the local militia authorities have another problem with which to deal, that of rounding up the Bulgarians in the district.

Col. Penhorwood, of the 51st Regiment, was officially informed this morning that war with Bulgaria had been declared, and asked by the Staff for a statement in regard to any action he might take said that he had been instructed to treat all Bulgarians as alien enemies.

"I am not prepared just now to say how many Bulgarians there are in the district under my jurisdiction," said Col. Penhorwood, "but can be assured that we will make a strenuous effort to locate all of them and treat them according to the instructions I have received."
