

SIXTY ALIEN ENEMIES SENT TO NEW ONTARIO

Sixty alien enemies have been sent from Kingston to the site of the new Experimental Farm in New Ontario, near Hearst. Mr. Grisdale, of the department of agriculture, has gone to lay out the new farm.

The men who will be sent to the works near Hearst will be chiefly from Montreal where the unemployment situation is very bad.

Fifty men were sent to Petawawa from Toronto a few days ago and there are only a small number left.
